

The Script

Bulletin

FEBRUARY 2016

■ UPDATES:

Happy New Year and welcome to the first monthly Script Bulletin

To help keep you all up to date with CREST news and events we have introduced this monthly bulletin. This will run in addition to the full quarterly Script member magazine.

Script Magazine

We are looking to include more member news and technical articles in Script so please send any content, ideas and suggestions over to allie@crest-approved.org. We are also always looking for people to feature in the 'getting to know you' slot and member companies to profile.

Marketing survey:

In 2015 we stepped up CREST's marketing activities, with more media engagement, the growth of CRESTCon, participation at more industry events and webinars, along with more workshops and events to support CREST research and initiatives.

As a member company we are keen to gather your opinions on CREST's marketing activity and how it impacts both you and

the industry. We are particularly interested in your suggestions and recommendations for the enhanced marketing programme planned for 2016 – including anything that should be done differently or new ideas to explore to help raise awareness and understanding of CREST and its Member companies. Ideally we would like every member to be represented in this survey. Allie Andrews will be in touch with the online questionnaire details and also to set up a number of more detailed one-on-one telephone interviews.

NCA workshop report:

The findings from the NCA workshop are now available to download http://www.crest-approved.org/news/crest-and-nca-cyber-crime-report/crest_nca_cybercrimereport/index.html

CREST Workshops

CREST Events

Industry Events

CREST Workshops:

Influencing Cyber Security classroom material for the Computer Science GCSE

10.30am – 4.00pm 11 February

AQA, Devas Street, Manchester, M15 6EX

Hosted by AQA

CREST is running a workshop with AQA - an independent education charity and the largest provider of academic qualifications taught in schools and colleges – that aims to draw upon the knowledge and experience of the CREST membership to help develop classroom-based material for teaching cyber security in the new Computer Science GCSE specification.

To kick off the day, AQA will explain their new GCSE specification in terms of both teaching and assessment requirements. CREST members, along with computer science teachers and assessors, will then discuss the type of content and resources that would work best in the teaching of cyber security, as well as what is feasible to produce and how this will be done.

It is your chance to influence how young people are introduced to and taught cyber security, which will have a direct impact on the future of our industry. If you could like to attend, please contact

allie@crest-approved.org

Women in Security

10am - 4pm, 24 February

KPMG, 15 Canada Square, Canary Wharf, London, E14 5GL

CREST is running a workshop that looks at the imbalance in the ratio of women working in the security industry. The aims are to raise the profile of the issues; provide a platform for a collaborative view to be taken of existing activity; provide an output to describe an agreed set of actions that the industry can take to make a positive impact; and agree on who is responsible for these actions, how success will be measured and who will help to drive any centralised initiatives.

The day will consist of presentations and three rounds of group questions, resulting in a discussion on potential actions to be taken.

If you wish to attend please contact

allie@crest-approved.org

Other planned workshops include:

Cyber Insurance Workshop

Social Engineering Workshop

We will let you know more on these in following issues.

CREST Events:

STAR/Threat Intelligence Briefing

23 February, 14.00-18.00

Deloitte, 6th floor of Hill House,
1 Little New Street, London,
EC4A 3TR

CREST is holding the first in a series of Quarterly STAR Threat Intelligence Briefings, which aim to bring together STAR Penetration Testing companies and Threat Intelligence providers on a regular basis. Our thanks to Deloitte for hosting this event at their offices.

At this first briefing we will be reviewing the STAR syllabus and the final process documentation. There will also be a networking session afterwards to facilitate further development of relationships between these two elements of the STAR scheme.

To register your interest, please email
allie@crest-approved.org.

Places are limited and for CREST STAR accredited members only.

CRESTCon & IISP Congress

10 March, 09.00-18.00

35-43 Lincoln's Inn Fields,
London, WC2A 3PE

CRESTCon & IISP Congress is a unique event that brings together leading technical and business information security professionals. Now in its fourth year, the event has become a key date in the industry calendar, attracting an impressive

line-up of speakers and over 350 senior delegates. In 2016 we are building on this success to make the event even bigger and better. As part of this we are introducing a third speaker track, a larger demo area and a bookshop. Delegates will include senior security, risk and compliance managers from a wide range of public and private sector organisations, along with security consultants and business directors working in the technical information assurance and response industry.

CREST Webinars

CREST now has a BrightTalk channel for hosting webinars and other videos and we will be stepping up our program of webinars. See <https://www.brighttalk.com/channel/13519/crest>

If you are interested in presenting a technical webinar then please submit your ideas for consideration to

allie@crest-approved.org.

We will promote, run and record on the CREST channel

Jules Pagna Disso will be presenting a webinar as part of BrightTalk's Data Driven Security summit, 16-17 February.

February. Ken Munro will be presenting a webinar as part of BrightTalk's Data Protection & Incident Response summit, 15-16 March. More details to follow in the next issue.

Event Diary

Industry Events:

Infosecurity Europe

*07-09 June,
09.00-16.00/17.30*

*Olympia, Hammersmith Rd,
London W14 8UX*

With over 315 exhibitors and 12,000 visitors Infosecurity Europe is one of Europe's premier information security events, featuring the largest and most comprehensive education programme. This event caters to a diverse range of IT security professionals, from hardware companies to government professionals to finance.

CREST will be exhibiting at this event.

IP EXPO London

*05-06 October,
9.30-16.30/17.30*

*ExCel London, Royal Victoria
Dock, London E16 1XL*

IP EXPO Europe helps visitors understand where the industry is heading and explores the technology that will enable the changing nature in which we work. It allows you to engage with new tech innovators, as well as the global brands that are driving change and hear from experts on solution success stories - ones that have worked, and also those that have not.

CREST will also be running a demonstration area.
