JUNE 2016

■ UPDATES:

IP EXPO Manchester a roaring success

CREST was pleased to support the Cyber Hack Theatre at IP EXPO Manchester this year. The event took place at the impressive Manchester Central from 18-19 May 2017. The Cyber Hack area proved to be a very popular area with a full house for each session. CREST will also be supporting the Cyber Hack Area at IP EXPO Europe in October. If you are interested in taking part in this, please contact allie@crest-approved.org

Cyber Insurance workshop review

On 25 April 2016 CREST held a Cyber Insurance Workshop at the CGI offices in London Kings Cross. We would like to take this opportunity to thank CGI for their hospitality. Attendees included CREST members, Insurance companies and insurance brokers who examined the question: *How can the cyber insurance and incident response industries work more collaboratively?* The workshop explored the security industry's lack of confidence in both the value of cyber insurance and the insurance companies and how to reduce both the likelihood of incidents and the claim value resulting from them. A set of actions was agreed by the two industries that aim to make a positive impact and move forward. A report has been drafted and will be available for download shortly.

CREST and the IET Innovation Cyber Security Award

CREST has helped the IET to scope out its new Cyber Security category in the IET Innovator awards. Ian Glover is also chairing the judging panel. There is still time to get your entries in at: <http://conferences.theiet.org/innovation/categories/cyber-security/index.cfm>

Deadline is 8 July and the awards take place on 16 November.

More details on the award:

Entries to the IET Cyber Security Innovation Award category are welcomed from all organisations, including universities, public sector bodies, professional security services providers, technology vendors and resellers or end-users. The Cyber Security Award will recognise innovation that has reached the stage where its potential to mitigate risk to organisations, government and individuals in the UK has been clearly identified.

Entries can range from security research, to new products or services that help to solve today's important security challenges, through to innovative education campaigns or certification schemes. We are interested in fresh thinking, advanced technology and new approaches that address today's cyber security problems.

Entries are particularly encouraged from – but not limited to – the following areas:

- Threat intelligence
- Incident response
- IoT
- Social media
- Mobile malware
- DDoS
- Third party attacks
- APTs
- The insider threat
- Cloud computing
- Phishing and social engineering
- Education
- Cyber Forensics
- Threat detection
- Critical infrastructure

CREST Workshops

Event Diary

CREST Workshops:

Telecommunications Workshop

Development of a scheme to address technical security assurance within the Telecommunications industry.

The workshop will look at how a scheme can be developed to provide the telecommunication industry, and those responsible for overseeing the industry, with confidence in the security controls in place to protect against cyber-attacks. The scheme will be based upon the establishment of criteria against which to assess organisations providing services in this area. The development of certifications for individuals

providing internal or external services. The ability to link in with other initiatives in this area including threat intelligence and incident information. The ability to categorise business functions and systems to ensure that the appropriate level of assurance is provided and key metrics to measure the individual companies and systems, the industry within the UK and any progress made.

Date and Location TBC.

Other planned workshops include: Nuclear industry and CHECK.

If you are interested in hosting events or have any questions, please contact allie@crest-approved.org

CREST Events:

CREST / NCA Prevent briefing & networking: Helping young people to pursue careers in cyber security, not cyber crime

Hosted by IBM

Date: Tuesday 14 June 2016

Time: 10.00 - 16.00

IBM, 76/78 Upper Ground,
South Bank, London, SE1 9PZ

This event will look at how industry and law enforcement can collaborate to encourage young people to pursue careers in cyber security, not cyber crime.

AGENDA

10.00 – 10.30

Coffee and networking

10.30 – 11.15

Ian Glover, President, CREST – Introductions and presentation of the CREST and NCA report

11.15 – 12.00

CREST Events:

Date for your diary: CRESTCon & IISP Congress 2017

15 March, 09.00-18.00 - Royal College of Surgeons, - 35-43 Lincoln's Inn Fields. London, WC2A 3PE

CRESTCon & IISP Congress is a unique event that brings together leading technical and business information security professionals. The event has become a key date in the industry calendar, attracting an impressive line-up of speakers and over 400 senior delegates.

CREST Webinars

CREST has a BrightTalk channel for hosting webinars and other videos and we will be stepping up our program of webinars. See <https://www.brighttalk.com/channel/13519/crest>

If you are interested in presenting a technical webinar then please submit your ideas for consideration to allie@crest-approved.org. We will promote, run and record on the CREST channel.

We are also looking for people to take part in the BrightTalk security summits. Topics coming up include:

August 09-10

Security Analytics & Threat Analysis

September 06-07

Network Security & Hacking

October 11-12

Privacy vs. Security

November 08-09

Data Protection & Incident Response

December 06-07

The 2017 Threatscape

Please contact allie@crest-approved.org for more information.

Industry Events:

Cyber Security in Modern Power Systems

15 June 2016. One America Square Conference Centre, London UK

www.theiet.org/cyber-grid

Gain the information you need to mitigate cyber threats to the power grid. The day will discuss current strategies, threats and mitigation tactics to protect our national grid. CREST President Ian Glover will be speaking on “Discovering an advanced persistent threat attacker in your network”. Other speakers include ABB, NCC Group, PA Consulting and Thales Cyber and Consulting Services.

CREST members can register at the IET member rate, saving £90.

BSides Manchester

18th August 2016

BSides Manchester was born in 2014 as a result of three Security Professionals based out of Manchester deciding that the UK needed more than just a single BSides event each year. For more information – **<http://www.bsidesmcr.org.uk/>**

CREST will be exhibiting at this event.

44CON

14-16 September, ILEC Centre, London

44CON is an Information Security Conference & Training event taking place in London. It's designed to provide something for the business and technical Information Security professional. At the bigger conferences, getting time with top class security speakers is limited. At 44CON, you have great access to speakers, who are all willing to spend time and talk about their work.

CREST will be exhibiting at this event.

For more information - **<https://44con.com/>**

IP EXPO Europe

05-06 October, 9.30-16.30/17.30 – ExCel London, Royal Victoria Dock, London E16 1XL

IP EXPO Europe helps visitors understand where the industry is heading and explores the technology that will enable the changing nature in which we work. It allows you to engage with new tech innovators, as well as the global brands that are driving change and hear from experts on solution

CREST is supporting the cyber hack area and exhibiting at this event. If you are interested in providing a demo for the cyber have area please contact **allie@crest-approved.org**

Industry Events:

Security Serious Week

Security Serious Week is five days dedicated to helping businesses take security more seriously.

2016 sees the week kick off on the 3rd October with a conference at the Department for Media, Culture and Sport and a keynote speech from Ed Vaizey, Minister of State at the Department for Culture, Media and Sport and the Department for Business, Innovation and Skills.

There will also be interactive sessions with a focus on security awareness and why hire a hacker followed by lunch. Security Serious Week will also bring you over 50 webinars on the hottest topics in cyber security and the addition of a unique awards night to honour the (often overlooked) Unsung Heroes on the front lines of security operations that defend organisations from cyber threats.

Ian Glover will be speaking at the event and there is chance for any Members to elect to do a free website. If anyone is interested can they please contact allie@crest-approved.org.

Infosecurity Financial Services

25-27 October – Location to be confirmed

Entering its 5th year, the Information Security FS Conference is the premier opportunity for cyber security discussions designed specifically for financial services organisations. Information Security for Financial Services is the premier opportunity in Europe for financial services cyber security stake holders and solutions providers to gather and discuss the strategic, technical and risk considerations of their information security policy. Information Security FS provides the opportunity to discuss the threats of today and the issues of tomorrow with the most like-minded audience available.

CREST will be involved in a stand, presentation and workshop this year.
