

The Script Bulletin

SEPTEMBER 2017

■ UPDATES:

SOC Project Update

SOC Accreditation Scheme – first phase launches in November

Following extensive input from members and industry this year through workshops, webinars, interviews and on-site visits, the SOC Accreditation scheme is in its final stages of creation. The scheme will be launched in 3 phases, with phase 1 being launched on 1st November 2017.

Phase 1, which is the first part of the accreditation process, will consist of an application form. This phase will be offered free of charge from launch until 1 February 2018. After this date, the cost going forward will be £750+VAT.

Phase 2, is due to launch in January 2018 and is the on-site audit. This will be conducted by a qualified auditor, and will have to be completed within 6 months of completion of the application form. The cost for this will be staggered dependant on the number of SOC's within Scope.

Phase 3, is due to launch on 1 June 2018 and will consist of a Technical Assessment. There will be 2 levels of membership, the names for these will be announced at launch.

The first will be awarded on successful completion of the application form and onsite audit.

The second will be awarded on successful completion of the application form, onsite audit and technical assessment.

Following successful completion of each phase companies will be added to the CREST website as detailed in the table here:

Company	Member (1)		Member (2)
	Application Form	Onsite Audit	Technical Assessment
Company X	✓		
Company Y	✓	✓	
Company Z	✓	✓	✓

The scheme will help the buying community in understanding how SOC's work. The key criteria required in an effective service will, in particular, help the buying community differentiate the services provided. The scheme will provide existing and potential CREST Members with a tangible differentiator to help them attract customers. It will also help promote CREST more broadly in the market place, both in the UK and internationally.

CREST introduces new Threat Intelligence Analyst Certification

With threat intelligence playing an increasingly important role in the fight against cyber crime, CREST has introduced a new examination and certification for threat intelligence analysts. The syllabus reflects the high level of technical skills and specialist knowledge required to achieve CREST Registered Threat Intelligence Analyst (CR TIA) status in line with other CREST certifications in penetration testing and incident response.

UPDATES:

Singapore International Cyber Week

CREST president Ian Glover was delighted to be invited to attend Singapore International Cyber Week, which took place 18-21 September. Delegates were told about the importance and success of the establishment of the CREST examination facility at the Singapore Institute of Technology.

CREST Research Collaboration Tool

Collaboration is key to what CREST does and we continue to work closely with members, government, academia and industry on our research. We are always looking for ways to make this process better and encourage more people to take part.

With the launch of the new Bug Bounty project, which we hope will provide a definitive view from the technical security industry in the form of a position paper, we are trialling a new online collaboration tool on for easier remote participation in projects. It will also provide an opportunity to put forward research ideas.

If you would like more information please contact allie@crest-approved.org

CREST in the Middle East

Earlier in 2017, CREST was awarded IAF capacity building funding by the Department of International Trade to build and stimulate cyber capacity in across the Middle East. As a consequence, CREST has travelled to the region a number of times during 2017, and earlier on in September undertook a maturity study across Saudi Arabia, Bahrain and the UAE. During a series of meetings in the region, CREST was introduced to both National Technical Authorities, Monetary Authorities, Development Agencies and a number of interested service providers. It is very apparent that there is a need for developing cyber capability, capacity and consistency across the region. In 2017, there is recognition that the region is a net importer of cyber services and there is a relatively low volume of organisations domestically focused within the market. In addition, the buying community is not well equipped to distinguish quality service providers from less

capable providers and this frequently results in tick box or compliance led assurance behaviour.

The GCC (Gulf Cooperation Council) region is heavily reliant on SCADA and ICS infrastructure and as a result, CREST research work in to this area resonates particularly well. Our accreditation schemes for Penetration Testing, Incident Response and Cyber Threat Intelligence are likely to have direct value to the market as we try to help build local capacity across organisations that operate in the sector. We anticipate running a series of workshops focused on the region towards the end of 2017.

If you have interest in learning more about export or development opportunities that are focused on the GCC, please contact elaine.luck@crest-approved.org

CREST president awards finalist - vote now

CREST's president, Ian Glover, has been shortlisted for a Computing Security Magazine 'Contribution to Cyber Security' award. Please vote for him here: <https://t.co/BQst8rzZm2>

September Events

CREST attended 3 events in September and has numerous events coming up in October and November ending with Black Hat in December. The 3 events in September were a success with numerous leads being collated. We would like to take the chance to thank all the organisers for the welcome and for inviting CREST to partner with these events.

Cloudsec 2017

At Cloudsec CREST had a stand and there was a panel session that included Ian Glover, Lawrence Munro and Pete Wood. The panel session was well received by the audience.

There was a lot of interest in CREST at the stand, especially in our diversity research and in company membership and examinations.

UPDATES:

44CON

Another successful year at 44CON, with lots of interest in accreditations, examinations and our university guides. There was plenty of traffic to the stand and excellent networking opportunities at the Community evening. The 44CON bus bar was once again well received.

The UK Health Show 2017

This is the first type of event like this for CREST and we were incredibly busy. It was interesting to attend an event with such a diverse mix of attendees from areas such as Healthcare, Police Services, Academia and private sector.

We would be interested to hear from Members about other vertical market events you think CREST should attend in 2018. Contact: debbie.jones@crest-approved.org

Industry Film

If you haven't already seen it please take a look at the CREST Industry film that promotes the technical security industry. It would be great if you could also share it as much as possible: <https://www.youtube.com/watch?v=YUWTit0cLcE&feature=youtu.be>

If you tweet it please include [@crestadvocate](https://twitter.com/crestadvocate) in your tweet and we will retweet you.

New Academic Partner Program

Call for guest lectures

CREST has revamped its Academic Partner program and is in the process of going out to all existing partners to let them know, as well as recruiting new partners. As part of this we are completing a list of CREST members who are interested in giving occasional technical talks/lectures to the students the areas of penetration testing, threat intelligence and incident response in particular. Please contact allie@crest-approved.org for more information.

Academic Partner Program details

You can download details on the new Academic Partner Program, which includes information on how to apply at: <http://www.crest-approved.org/wp-content/uploads/Academic-Partner-Program.pdf>

Benefits of the program include:

- Publicity for the university and its relevant cyber security courses
- Career advice and guidance to students
- Subsidised CREST Practitioner Security Analyst (CPSA) examination vouchers
- Free access to hundreds of hours of professional and up-to-date video content relating to current thinking and best practice in cyber security
- Support to universities to run their own cyber security events / conferences
- Discounted tickets to CREST's annual conference, discounted exhibitor rates an opportunity for students to showcase work
- Membership of the CREST Advocate industry forum
- Support for syllabus creation and refinement
- Access to internship and work placement opportunities
- Use of CREST Academic Partner logo

UPDATES:

CRESTCon 2018 early bird sponsorship packages

3 May 2018 - Royal College of Physicians, 11 St Andrews Place, Regent's Park, London NW1 4LE

20% discount for Earlybird bookings for the first 6 sponsors to sign up.

Additional savings for Corporate Members of CREST and IISP

Now in its sixth year, CRESTCon is a key date in the industry calendar, attracting an impressive line-up of speakers across three streams and over 450 senior delegates. This year the venue has changed allowing space for more sponsors. We are including one platinum package so once it is gone it's gone! As many of you know the event includes a busy exhibition room, bookshop and a demo area that also provides the opportunity for students to showcase their work. This year we have also added a garden party in the evening, providing further networking opportunities.

Sponsor Packages are as follows:

Platinum Package - £15,000 (Earlybird 20% off Non Membership Rate £12,000) Membership Rate £12,000 (Earlybird 20% off Membership Rate £9,600)

- Only one Platinum Sponsor
- 12ft table in large exhibition space in premium position of your choice (as long as space is vacant)
- Choice of additional sponsorship (costs below)
- 8 delegate passes
- Speaking slot in chosen stream
- Opportunity to place your published research in the event bookshop
- Largest logo displayed on pre-event marketing and during conference
- Logo to be displayed in Exhibition Hall
- Banner in Reception area
- Full page in the conference brochure
- Video interview by professional journalist
- Email shot promoting your presence
- 3 pieces of corporate literature or merchandise included in the delegate pack
- 2000 word editorial in the IISP & CREST newsletters
- Social media and PR promotion through CREST and IISP
- Largest logo and web link on conference website.

Gold Package - £10,000 (Earlybird 20% off Non Membership Rate £8,000)

Membership Rate £8,000 (Earlybird 20% off Membership Rate £6,400)

- 12ft table exhibition space in premium position of your choice
- Choice of additional sponsorship excluding drinks (costs below)
- 6 delegate passes
- Speaking slot
- Opportunity to place your published research in the event bookshop
- Large logo displayed on pre-event marketing and during conference
- Full page in the conference brochure
- Video interview by professional journalist
- Email shot promoting your presence
- 2 pieces of corporate literature included in the delegate pack
- 1000 word editorial in the IISP & CREST newsletters
- Social media and PR promotion through CREST and IISP
- Large logo and web link on conference website.

Silver Package - £6,000 (Earlybird 20% off Non Membership Rate £4,800)

Membership Rate £4,800 (Earlybird 20% off Membership Rate £3,840)

- 6ft table space in exhibition area
- Four delegate passes
- Choice of additional sponsorship excluding lunch and drinks (costs below)
- Opportunity to place your published research in the event bookshop
- Logo displayed on pre-event marketing and during conference
- 150 word entry in the conference brochure
- 1 piece of corporate literature included in the delegate pack.
- 500 word editorial in the IISP & CREST newsletters
- Social media and PR promotion through CREST and IISP
- Large logo and web link on conference website.

■ UPDATES:

Bronze Package- £3,000 (Earlybird 20% off Non Membership Rate £2,400)

Membership Rate £2,400 (Earlybird 20% off Membership Rate £1,920)

- 4ft table space in exhibition area
- 2 delegate passes
- Logo displayed during conference
- Logo and web link on conference website

Demo Package - £3,500 (Earlybird 20% off Non Membership Rate £2,800)

Membership Rate £2,800 (Earlybird 20% off Membership Rate £2,240)

- 6ft table space in demo area – Large Hall with Exhibitors
- 3 delegate passes
- Description of demo in the conference brochure
- Logo displayed during conference
- Logo and web link

Academia Package - £600 (Earlybird £500)

- Space in exhibition area
- 2 delegate passes
- Logo displayed during conference
- Logo and web link on conference website

Additional Sponsorship

- Post Event Drinks Reception & Garden Party £3000
- Lunch £2500
- Coffee Breaks (am & pm) £1500
- Delegate bags – Can either supply at own cost or provide artwork £2000
- Lanyards – Can either supply at own cost or provide artwork and £1500
- Pens and pads £1500
- Pocket Guides £1000

So, put the date in your diary, don't miss out and remember the 20% offer applies to the first 6 sponsors only. Get in touch now and don't miss out on the chance to exhibit at this very special discounted rate. Your company logo could be in the next issue of Script Bulletin

CREST Events:

CREST Fellowship Awards

The Fellowship ceremony and dinner takes place at The Tanner & Co., 50 Bermondsey St, London SE1 3UD on 22nd November 2017

These are the first CREST Fellowships to be awarded. This will become an annual event to recognise individuals for their achievement or contribution within CREST or the technical information security industry as a whole.

We are also putting together a 'Fellowship Yearbook'. This keepsake will include information on all the award recipients for 2017, along with photos from the awards evening.

Tickets are priced at £85 and invitations will be going out shortly. For more information contact:
allie@crest-approved.org

CRESTCon 2018

Save the date 3rd May 2018 to be held at the Royal College of Physicians in London.

Year 6 of CRESTCon will be held on 3rd May 2018 at a change of venue this year. There will be additions to the programme with more content and more networking opportunities to look forward to.

AGM

The date of the next AGM is scheduled for 2nd May 2018 at the Royal College of Physicians

CREST Workshops:

Webinars:

CREST has a BrightTalk channel for hosting webinars and other videos and we will be stepping up our program of webinars in 2017 after a successful 2016. See <https://www.brighttalk.com/channel/13519/crest>. BrightTalk's summit calendar for 2017 is listed below and we are looking for CREST members to take part.

November 14–16: The 2018 threatscape

**Nov 14:
2017's biggest breaches and why**

**Nov 15:
Emerging threats & technologies**

**Nov 16: 2018:
Threats on the horizon**

If you are interested in presenting a technical webinar or would like us to host your content, then please submit your ideas for consideration to allie@crest-approved.org. We will promote, run and record on the CREST channel.

The 2018 calendar will be coming soon!

Industry Events:

Cyber Security Europe 2017 (IP EXPO)

4-5 October 2017, ExCeL Royal Victoria Dock, London, E16 1XL

IP EXPO is one of Europe's leading IT events for those looking to find out how the latest IT innovations can drive their business forward. The IP EXPO event series showcases brand new exclusive content and senior level insights from across the industry, as well as unveiling the latest developments in IT. IP EXPO events are aimed at CIOs, heads of IT, security specialists, heads of insight and tech experts.

CREST is supporting, exhibiting and presenting at the London event <http://www.cybersecurity-europe.com/>. If you are interested in helping on the stand please contact debbie@crest-approved.org

Infosecurity North America 2017

04-05 October 2017, Hynes Convention Centre, 900 Boylston Street, Boston, MA 02115

Infosecurity North America is an exciting new launch event from the Infosecurity Group. Infosecurity Group run 7 market-leading information security events around the globe and have over 22 years of experience connecting everyone and everything you need to know about information security. Infosecurity North America will bring this wealth of global experience and knowledge to Boston in the form of an innovative SMART event, offering digital tools to help visitors and exhibitors make the most out of their time.

CREST is supporting and exhibiting at the event <https://www.infosecuritynorthamerica.com/>. If you are interested in helping at this event please contact debbie@crest-approved.org

Cyber Security Chicago 2017 (IP EXPO)

18-19 October 2017, McCormick Place, Chicago

Cyber Security Chicago will take place at the award-winning McCormick Place. Combining world class solutions on the exhibition floor with a strategic C-Suite level keynote conference, brought to you by the same organisers as IP EXPO.

CREST is supporting and exhibiting at the event <http://www.cybersecurity-chicago.com/>. If you are interested in helping at this event please contact debbie@crest-approved.org

Cloud & Cyber Security Expo Singapore 2017

11-12 October 2017, Marina Bay Sands Expo and Convention Centre, Singapore

Asia's dedicated cloud security event for business, a 2-day event ground-breaking, inspiring, productive, power-packed with knowledge sharing, education and business opportunities galore! In 2016 the event attracted a record-breaking 12,958* senior IT professionals (*independently audited by BPA) from 45 countries, featuring 300 of the world's leading innovators and suppliers and 300 world-class speakers. Cloud Security Expo, Singapore 2017, alongside

SSCS 2017

The 12th International Conference on System Safety and Cyber Security

30 October - 1 November 2017. IET London: Savoy Place

<http://events.theiet.org/cyber-safety/index.cfm?origin=crest>

Take your place at the only UK conference where safety and security engineers can meet and debate the latest developments and challenges in the field.

You will hear new research and results in cyber security for defence, Human Factors, establishing intelligent and proactive combined safety and security standards, developing security strategies for safety critical systems and much more.

Key speakers will include

- Air Commodore Bruce Wynn, Independent Cyber Consultant and Special Advisor (Cyber) to the City of London Police
- Chris Hankin, Co-Director, Institute for Security Science and Technology
- Angela Sasse, Director, UK Research Institute in Science of Cyber Security

- Sarabjit Purewal, Head of Operations in the Chemicals sector, Health and Safety Executive
- Ian Dreelan, Assistant Coroner for Birmingham and Solihull / The Niteworks Partnership
- Audrey Canning & Ron Bell, Co-Chairs of International Maintenance Teams dealing with Edition 3 of IEC 61508

Workshop day: 30 October

The first day of the conference offers you the opportunity to enhance a specialist skill at an extended session. Choose from:

- A roadmap for improving the cyber-security of safety-critical systems
- Integrating cyber security: IT, OT & safety
- "You are under attack – 'Cyber Defence or Protect the Business?'"

Registration discounts for CREST members

As a supporter of the conference, CREST members can save £100 by registering at the IET Member rate. See the full programme and book your place at <http://events.theiet.org/cyber-safety/index.cfm?origin=crest>

Industry Events:

C5 Insider Threat Event

31-01 November 2017, St. James' Court, A Taj Hotel, London

This event focuses on attacks being perpetrated by insider threats showing high profile organisations and government entities still lack the best practices to combat the threat effectively. This conference will look at how companies should define, determine, detect and ultimately deal with internal threat. An example of key topics that will be discussed are strategies for prevention and the potential threats for GDPR.

CREST is supporting and presenting at the event <https://www.c5-online.com/insider-threat/>. If you require any further information then please contact debbie@crest-approved.org

UK Security Expo 2017

29-30 November 2017, Olympia London - Grand Hall, Kensington, London, W14 8UX

UK Security Expo brings together 10,000+ international stakeholders of security to London from Government, Transport & Borders, Major Events, Military, Law Enforcement, Emergency Services, CNI and Private Sector. With over 250 world-class exhibitors and working closely with HM Government department's including the Home Office JSaRC regarding immersive demonstrations plus the Department for International Trade DSO for 50 Official Hosted Country Delegations, UK Security Expo is a major-scale exhibition with innovation at its core.

CREST is supporting, exhibiting and presenting at the event www.uksecurityexpo.com/crest. If you require any further information then please contact debbie@crest-approved.org

Cyber Threat Intelligence & Incident Response 2017

29-30 November 2017, Prospero House, 241 Borough High St. Southwark, London, SE1 1GA

Cyber Threat Intelligence and Incident Response is a premier forum for security professionals to address how a greater understanding of the cyber threat landscape can lead to exponential improvements in strategic planning and tactical decision making during cyber incidents. It is also the only conference in Europe that looks specifically at the role that threat intelligence plays in supplementing your cyber security strategy, bringing together like-minded practitioners to discuss case studies regarding how they are maximising the potential of threat intelligence.

CREST is supporting and presenting at the event <https://cyberthreat.iqpc.co.uk/>. If you require any further information then please contact debbie@crest-approved.org

Industry Events:

Black Hat Europe 2017

*4-7 December 2017, ExCeL
Royal Victoria Dock, London,
E16 1XL*

One of the leading information security events in the US over the last 20 years and after the success of Black Hat in the UK last year they have moved the venue to allow more delegates to attend. Black Hat provides attendees with the very latest in research, development, and trends in Information Security. Here the brightest professionals and researchers in the industry will come together for a total of four days--two days of deeply technical hands-on Trainings, followed by two days of the latest research and vulnerability disclosures in the Briefings.

CREST is supporting the event and more information is to follow.
<https://www.blackhat.com/eu-17/>.
