

Event Overview

The **2nd Edition Cybersecurity & Threat Intelligence Summit** is back! This time, **In-Person** in **Malaysia** on the **21**st **& 22**nd **June 2022** at **Pullman KLCC Hotel, Kuala Lumpur.**

The highly interactive 2 days event, comprises of a one day **conference** and two **exclusive workshops** are tailored for cybersecurity professionals and IT experts with updates on the recent development in cybersecurity as well as hot-trends in SEA and globally to stay ahead with the challenges, technologies, strategies and way of implementing the right techniques to sustain in the new era to be able to overcome cyberattacks in the future hybrid environment.

This event will bring remarkable networking opportunities, interactive discussions through keynotes, panelists and workshops among senior-level decision makers from cross-industries. Attendees will gain insights on the importance of strengthening strategies to combat cyber-threats in the new era for long-term business sustainability.

Who Should Attend?

This summit has been specifically designed for, without limiting to: -

- Chief Information Security Officer (CISO)
- Chief Technology Officer (CTO)
- Chief Information Officer (CIO)
- Director of Cybersecurity
- Group Head of Cybersecurity
 Head of Data Privacy
- Head of Data Private Head of Defense
- Head of Der
- P Head of 11
- Information Security Manager
- Head of IT Risk
 Security Analyst
 Security Engineer
 Security Architect
 Security Administrator
 Security Software Developer
 Senior Data Analyst/ Data Scientist
 Security Consultant/Specialist
- Compliance & Governance

Security Advisor

From the departments and divisions of Cyber Threat & Intelligence, IT Management, Finance, Software Development, IT Solutions, Threat Intelligence Solutions, Risk & Compliance, Regulatory Bodies and more.

Topics of Discussion & more...

2nd EDITION ANNUAL CYBERSECURITY & THREAT INTELLIGENCE SUMMIT 2022 Pullman KLCC, Kuala Lumpur | 21st & 22nd June 2022

Featured Speakers

Opening Address (YBHG. DATO' TS. DR HAJI AMIRUDIN ABDUL WAHAB FA Sc Chief Executive Officer CyberSecurity Malaysia Malaysia

Workshop Facilitator GEORGE DOBREA EC-Council Master Instructor & Microsoft MCT Regional Lead Cybersecurity Technologist Romania

Panel Moderator AARON RAJ Associate Editor Tech Wire Asia Malaysia

LTC ROLAND JAVINES ONG INF (GSC) MNSA PA(R) Senior Territory Manager & Solutions Consultant Federal/Government & Service Providers Trellix

JAN BOSVELD VP Sales APAC Promon Hong Kong

JOHN LLOYD CREST Council Asia CREST Singapore

Keynote Speaker

Chief Executiv

Workshop Facilitator

KEVIN CARDWELL

Cyber2labs, Los Angeles

GEORGE MATHEWS

JOSIAH WINSTON

Analyst/ Data Protection Officer

EC-Council Certified Advanced

Penetration Tester ; President

Malavsia

Chairperson

MR. RAHAMZAM HASHIM

National Cyber Security Agency (NACSA)

Principal Data Privacy & Security Compliance

NT Business Consulting & Training Malaysia

VIRAG THAKKAR APAC Information Security Officer Allianz Partners Thailand

JACO BENADIE Partner Ernst & Young (EY) Malaysia

DR.CARRINE TEOH CHOOI SHI Vice President ASEAN CIO Association (Cybersecurity & Governance) Malaysia

HAN THER LEE Chief Technology Officer Cybots Singapore

DR.CHALEE VORAKULPIPAT Head of Information Security Research Team National Electronics and Computer Technology Center (NECTEC) Thailand

TANVINDER SINGH Director Cybersecurity & Privacy - SEA PwC Malaysia

MEISAM ESLAHI PhD. Senior Director Cybersecurity EC-Council Global Services Malaysia

AZRIL RAHIM Senior Cyberthreat Intelligence Management Tenaga Nasional Berhad Malaysia

PEI YUEN WONG Chief Technology Officer IBM Security Australia, Southeast Asia, New Zealand, Korea

PHILIP VICTOR Managing Director Welchman Keen Singapore

3novex Global · Certificate will be provided to speakers, sponsors and participants at the end of the conference

2nd EDITION ANNUAL CYBERSECURITY & THREAT INTELLIGENCE SUMMIT 2022 Pullman KLCC, Kuala Lumpur | 21st & 22nd June 2022

HAN THER LEE

3novex Global

Chief Technology Officer Cybots Singapore

Day One Outline (Cont'd) | ON-SITE Conference

1:00pm	Lunch Break
2:00pm	 TRENDING ON IAM & PAM TODAY Best IAM strategies Measure taken by organizations to secure systems & network infrastructure How to optimize customer identity and access management?
	TANVINDER SINGH Director Cybersecurity & Privacy - SEA PwC Malaysia
2:30pm	ADVANCING DDoS ATTACKS Ways to ensure systems are configured properly to avoid unwanted incidents Organization to understand & apply defense-in-dept strategy correctly Preventive measure to prevent security threats
	JACO BENADIE Partner Ernst & Young (EY) Malaysia
3:00pm	CREST ACCREDITATION & CERTIFICATION • Raising professional standards and delivering measurable quality assurance across cybersecurity
	JOHN LLOYD CREST Council Asia CREST Singapore
3:30pm	Coffee Break & Networking 🚊 🍇
4:00pm	MY SaaSy IDENTITY: IDENTITY SECURITY FOR EVERYWHERE, IN THE CLOUD JOSIAH WINSTON Senior Solutions Engineer, ASEAN, CyberArk
4:30pm	 GLOBAL PANEL - THREAT INTELLIGENCE : WHAT THE FUTURE HOLDS (Panel 2) The role of CISOs today & ways to achieve harmony with data & cybersecurity Ways to spot vulnerabilities in existing system and monitoring future attacks Perspectives on hybrid working environment & initiatives to combat cyberattacks Ways to make businesses 5G ready
	(Panel Moderator) AARON RAJ Associate Editor Tech Wire Asia Malaysia AARON RAJ Associate Editor Tech Wire Asia Malaysia AZRIL RAHIM Senior Cyberthreat Intelligence Management Tenaga Nasional Berhad Malaysia
	VIRAG THAKKAR APAC Information Security Officer BM Security Australia, Southeast

Cocktail Networking Reception@ Level 2 Pullman KLCC | Day 1 (6.00pm to 7.00pm)

3novex Global

Day Two Outline | In-Person - Workshops

8:30 am Registration

MasterClass 1 :

CPENT & ADVANCED DEFENSE AND TACTICS OF DECEPTION PROGRAM

Senior Manager Level Technical Workshop Training

KEVIN CARDWELL

EC-Council Certified Advanced Penetration Tester ; President Cyber2labs, Los Angeles

WORKSHOP SCHEDULE

9.00am: Start

11.00am: Short Break

11.30am: Resume

1.00pm: End of Masterclass 1

Kevin Cardwell - President at Cyber2labs, an expert in cybersecurity and a well-known technical instructor with more than 35 years of business experience in offering consultancy. He worked extensively with banks and financial institutions throughout the Middle East, Europe and the UK. He also served as leader of a DoD Red Team with 100% success rate of compromise. Some recent consulting projects include the Petroleum Development Oman and the Central Bank of Oman. He designed and implemented the custom security baseline for the existing Oman Airport Management Company (OAMC) airports and the two new airports. Kevin is also an author of Center of Advanced Security CAST 611 - Advanced Penetration Testing and CAST 614 - Advanced Network Defense

Masterclass 1 - CPENT & Advanced Defense and Tactics of Deception Program primarily targeting Senior Manager level and to anyone moving from an expert role towards a security management position.

WORKSHOP AGENDA:

Part 1: Penetration Testing Skills

Establish your range

- · Plan, Plan and Plan again
- Identifying vulnerabilities to test
- Creating machines
- · Choosing range components

LAB: Establishing Your Range

Advanced Scanning Techniques

- Customization of scan protocols
- Analyzing the scan results
- · Determining a plan of attack
- Identification of filtering devices and other protections
- · Effective scan analysis methods
- · Customize and tune scan parameters
- Bypassing protection devices
 - Fragmentation Other methods
 - Source port - Egress busting
 - Checksum

LAB: Practical Advanced Scanning

Roadmap to Professional Security Testing

- Identify the methodology
- Hone skills
- Reporting
- · Components of the report

🔁 3novex Global

LAB: Enterprise Penetration Testing Practice

Part 2: Advanced Defense & Tactics of Deception

Deploying Advanced Perimeter Techniques

- Bogon Filtering
- Martians
- Time-Based Reflexive
- Blackhole Routing
- Context Based Source Address Verification · Hardening Perimeter
 - Devices

uRPF

LAB: Designing an advanced perimeter solution

- Host Based Hardening
- Host firewall
- Advanced Firewall Configuration
- · Windows Defender Exploit Guard
- · Windows Defender
- Immutable files
- · Application Whitelisting
 - File access policy daemon
- Micro-VM
- Hardware

LAB: Locking down the host machines

- Securing an Enterprise
- Emerging Threats
- Enterprise Malware Management
- Secure Network Architecture and Micro-segmentation
- Internal Decoys and Triggers

LAB: Securing an Enterprise

1:00 pm Lunch Break

MasterClass 2 :

EXECUTIVE MANAGEMENT PROGRAM

Chief Information Security Officer (CISO) Workshop Training

GEORGE DOBREA

EC-Council Master Instructor & Microsoft MCT Regional Lead Cybersecurity Technologist *Romania*

WORKSHOP SCHEDULE

2.00pm: Start 3.30pm: Afternoon Break 4.00pm: Resume 5.30pm: End of Masterclass 2

George Dobrea - founder and CEO of XEDUCO Institute, an expert in cybersecurity and a well-known technical instructor with more than 35 years of business experience in offering consultancy and instruction for military, commercial and public organizations in more than 30 countries.

Masterclass 2 – Executive Management Program primarily targeting the Chief Information Security Officers and useful to anyone moving from an expert role towards a security management position.

TARGET AUDIENCE:

- Chief Information Security Officers (CISO)
- Anyone moving from an expert role towards a security management position.

WORKSHOP AGENDA:

- The role of the modern CISO in 2022: from risk mitigation to business enabler.
- Challenges CISO's face in a rapidly evolving cybersecurity landscape.
- New CISO? Things to achieve in your first 90 days.
- Top 5 areas CISO's should prioritize today. Making the case for developing a security strategy.
- · Increasing Cybersecurity Culture with a Roadmap: a key objective of an effective CISO.
- \cdot CISO's common mistakes when dealing with the board and how to avoid them. A CISO playbook for stakeholder management, influence and persuasion.
- Practical assessment: how effective are your cybersecurity solutions against today's threats? The story of the recent cyber-attacks that have affected the business of organizations and how they could have been prevented.
- CISO's role during a cyber crisis. Wargame simulation: ransomware attack on the computer system of a company.

The CISO Experience by George Dobrea

Note: Agenda may be subject to change.
